

Washing machine Type 130

Cleans printing press parts such as ink pans, ink containers, doctor blades and other parts with solvent. Good cleaning results due to an oscillating spraying system with a powerful washing pump. The solvent tank is separated from the washing chamber; hence emissions are considerably reduced. The machine can be adapted to various tasks with the appropriate accessories. The washing machine is type-examined and explosion-proof (category 1/2) in accordance with ATEX.

Dimension:

usable width:	800 mm
usable height:	500 mm
usable length:	1500 / 2000 / 2500 3000 / 3500 / 4000 mm
